

CLEAN COILS MAKE DOLLARS AND SENSE

A dirty coil reduces the air flow causing a change in the coil temperature. This damages the compressor. When considering the minimal cost of maintenance by cleaning a dirty coil to prevent costly repairs, our service, without exception, is the logical choice.

COOL DOWN YOUR ENERGY BILL

Based on research conducted by the American Society of Heating, Refrigeration & Air Conditioning Engineers, (ASHRAE), you can save from 10 to 25% of the average operation cost for up to 15 years of service life on you're A/C unit, or from 25 to 55% after 15 years of operation by maintaining coil cleanliness and efficient air cleaners.

Tonnage	KW Hours per Season (Clean)	Total Cost per Season (Clean)	KW Hours per Season (Dirty)	Total Cost Per Season (Dirty)	Total Savings Per Season
3	4,100	\$320	5,700	\$448	\$128
5	5,500	\$470	8,100	\$687	\$217
7.5	7,400	\$650	11,200	\$964	\$314
10	12,300	\$1,000	16,800	\$1,394	\$394
15	16,000	\$1,370	24,400	\$2,092	\$722
20	20,800	\$1,790	32,400	\$2,794	\$1,004
25	27,000	\$2,290	40,800	\$3,493	\$1,203
30	30,800	\$2,680	48,900	\$4,205	\$1,525
40	41,500	\$3,570	66,400	\$5,716	\$2,146
50	52,100	\$4,470	82,300	\$7,056	\$2,586
60	63,000	\$5,390	98,600	\$8,404	\$3,014
